

CRAFTY CHRISTMAS

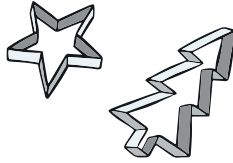

WHAT YOU'LL NEED

Potatoes

**Kitchen paper or
tea towel**

Biscuit cutters
(optional)

Sharp knife
(ask a grown up
for help!)

**Paint and
paper**

INSTRUCTIONS

Cut a potato in half (lengthways for a long stamp, or across the middle for a smaller stamp) - **get a grown up to help you with this.**

Dry the ends of the potato with kitchen paper or a tea towel.

Push your biscuit cutter into the sliced part of one of the potato halves. This will create an outline for you to follow.

Leave the cutter wedged in the potato, and carefully use a knife to cut around it. **You will need a grown up for this part** - if you don't have any biscuit cutters why not try making your own shape straight into the potato?

Peel away the outer edge of the cutter (where you've cut) to create your stamp.

Remove the cutter from the potato and, **hey presto, your stamp is now ready!**

DISPLAY YOUR STAMPS! ✨
